## MAXIMISE WATER REUSE ACROSS TASHKENT STATE AGRARIAN UNIVERSITY

### 1. Purpose

- 1.1. This policy aims at reaching sustainable use of water resources by maximizing water reuse in the territory of Tashkent State Agrarian University (hereinafter, TSAU).
- 1.2. This policy supports planning reuse of treated wastewater towards contributing the UN Sustainable Development Goals: increasing water-use efficiency in all sectors. In fact, the reuse of treated wastewater can be one of the alternative options in water scarce regions.

### 2. Rationale

- 2.1. This policy has been created to promote sustainable water use in the territory of TSAU.
- 2.2. This policy recognizes that water is finite resources, and the countries located in arid zone are vulnerable to changes in availability of water resources. Therefore, this policy services as a tool to contribute to achieve objective of the State Water Strategy for 2030.

### 3. Scope

- 3.1. This policy is an internal document reports about strategies and plans of the university on how to reuse of treated wastewater.
- 3.2. This policy applies to all representatives of facilities and laboratories owned by TSAU.

### 4. Policy

- 4.1. Maximize using wastewater across the universities, especially in flushing toilet and for irrigation purpose in agriculture activities in TSAU laboratories and research centers.
- 4.2. Setting minimum quality requirement for using treated wastewater for irrigation purposes.
- 4.3. Integrate reuse of treated wastewater in water planning and management at the university. In this case, the best practices around the globe should be learned and implemented.
- 4.4. Promote and implement innovations and eco-friendly technologies for treating wastewater and reuse of it.

### 5. Monitoring and compliance (optional)

- 5.1. Any non-compliance with this policy will be report to representatives of TSAU.
- 5.2. Sustainable use of water resources will be reached by this policy and other strategic plans of TSAU.
