INFORMATION LETTER

ABOUT THE CONFERENCE

On November 26, 2026, a republican scientific and practical conference entitled **"The role of logistics in enhancing the efficiency of agribusiness"** is scheduled to be held by Tashkent state agrarian university in cooperation with the international scientific journal "Science and Innovation".

The main goal of the conference is to discuss, from scientific and practical perspectives, the role and significance of logistics in enhancing the efficiency of agro-industrial business, to identify existing problems in the field, and to develop practical proposals for their effective resolution. Within the framework of the conference, particular attention will be paid to improving logistics processes from the production of agricultural products through their storage, processing, transportation and delivery to the consumer; to the efficient use of transport and logistics infrastructure; to the reduction of logistics costs; and to the optimization of supply chains. The conference also aims to promote the sustainable development of agro-industrial business by introducing digital technologies and innovative management methods into agrologistics, increasing product competitiveness, expanding access to domestic and foreign markets, and strengthening the integration of education, science and production.

Venue and date of the conference: November 26, 2026, Tashkent state agrarian university

Deadline for submission of articles: November 20, 2026

Conference languages: Uzbek, Russian, English.

Conference format: online and offline

CONFERENCE ORGANIZERS
